

EAST CRAWFORD RECREATION AREA

Developed in 1987, the 151 acre recreational area is located off East Crawford on Markley Road adjacent to the Municipal Golf Course. The runway from the old Municipal Airport was left intact which provides ample parking for three baseball fields (James Matson Field, Roger H. Wilbur Field, and Dean Evans Stadium) and four softball diamonds. There is adequate space for activities such as car rallies, vehicle testing, jogging and walking. The East Crawford Recreation Area also features an air-conditioned concession at the softball diamonds, playground and picnic areas. The softball fields are home to many Parks & Recreation leagues, while youth baseball associations, high schools, and colleges utilize the baseball fields. The completion of Dean Evans Stadium in 1992 provides a first class baseball facility with an 800-seat grandstand, concession and restroom facilities.
